Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

ELLIPTIC INTEGRALS

No. 18 of the Mathematical Monograph Series

Edited by Mansfield Merriman and Robert S. Woodward

By HARRIS HANCOCK, Professor of Mathematics, University of Cincinnati.

This book relates almost entirely to the three well-known elliptic integrals, with tables and examples showing practical applications. It has been limited to what is known as the Legendre-Jacobi theory. The discussion has been confined almost entirely to the elliptic integrals of the first and second kinds. 104 pages, 6 x 9. Cloth, $1.25 net.

FREE EXAMINATION—NO CASH IN ADVANCE

Members of the Mathematical Association of America can obtain a copy of this book for 10 days free examination—no cash in advance. Merely indicate your membership in this society. If not a member you can supply a reference, or state your position.

It is understood that you are to remit the price of the book within 10 days after its receipt, or return it to us, postpaid, within the above time.
